"We venture to say that no reader, great or small, who takes up this book (The Pretty Plate) will lap it down unfluished. It tells the story of a story told to half a dozon children in a fire-lit parior. Their comments point in a few words the character of those who make them with such graphic power that we see the histoners before us. In this respect the book is quite remarkable. We have not met with one in which juvenile character was so discriminated and portrayed."

Notice for the Restoration of Certain Lands to Market in the State of Wisconsin. THE grant of land to Wisconsin by the act of Congress approved 3d June, 1856, has been so far adjusted as to authorize the release from withdrawal of the vacant offered lands outside of the six miles limits of the following routes for railroads, viz: Pirst. The railroad route from "Madison or Columbus, by the way of Pertage Gity, to the S. Croix river, or lake, between townships twenty-five and thirty-one," and, Scoond. Of the road from "Found du Lac, on Lake Winnebago, northern to the State line."

erly, to the State line."

A withdrawal of certain lands was also ordered June 12, 1856, along the other proposed routes mentioned in axid act, vir. from "R. Croix river, or lake," "to the west end of Lake Superior, and to Bayfield," so as to afford time for the surveys and selections for said roads, but no survey having been reported of the same to the Department of the Interior, although more than a year and a half have clayed since said withdrawal.

Notice is therefore hereby given that all he vacant offered lands heretofore withdrawal room sale or entry along the routes of said located railroads which he outdide of its saide on each said of the said roads, situated in the undermentioned townships, which have not been selected in virtue of said grant, or any other grant made by Congress, or legally claimed by pre-emption, and which were subject to private entry on the days and at the places hereinsther specified, at the ordinary minimum of one dollar and twenty. Swe cents per acre. And all the effect townships as hereinafter described which had been withdrawn from sale on account of the proposed roads, not yet located, mentioned in the foregoing, will be restored at the times hereinafter designated, with the express provise, that the railroad grant by said act of 3d June, 1856, will attach to such of the old numbered sections as may be selected under said act within the six miles limits of such parts of the said roads as may be actually surveyed and staked of before the day hereinafter fixed for the restoration of said lands.

Jefferson City Coal Mining and Oil Manufacturing Company.

[ME above company was chartered December 30, 1857. The coal bank belonging to and from which this company will operate is situated in Callaway county, in the State of Miseour, lying about four miles from the Miseouri river, on the opposite bank from Jefferson city, and one hundred and twenty-fee miles from 8. Iouit by railroad. It is a gentle inclined plane from the free to the coal bank, no valleys or bills interzening, giving the company every advantage possible over any other bank that is yet known in the United States. So far as relates to navigation, the case with which the coal can be delivered to the Miseouri river, the great demand for the coal can be delivered to the Miseouri river, the great demand for the coal can be delivered to the Miseouri river, the great demand for the coal can be delivered to the Miseouri river, the great demand for the coal can be delivered to the Miseouri river, the great demand for the coal can be delivered to the Miseouri river, the great demand for the coal can be delivered to the Miseouri river, the great demand for the coal can be delivered to the Miseouri river, the great demand for the coal can be delivered to the Miseouri river, the great demand for the coal can be delivered to the Miseouri river, the great demand for the coal can be delivered to an an advantage of the demand of the coal can be delivered to an advantage of the demand of the coal can be delivered to an advantage of the delivered to the Miseouri river, the great demand of the coal can be a supplied to the definition of the delivered to the delivered to the Miseouri river, the great demand of the coal can be a supplied to the delivered to the del coal can be delivered to the Missouri river, the great demand for the coal by the steamboats, the central position of the bank for supplying the northern, western, and northwestern countries, together with the great demand is recal in St. Louis, and all the river cities between there and New Orleans, inclusive, no company can compate with use the second of the coal of these banks is said to be inferior to none in the known world for producing large quantities and a fine quality of ed. No slate or impurities are contained in it. But one great mass of the cannel coal, deposited to depth as yet unknown, (a depth of about one hundred and coal, deposited to depth as yet unknown, (a depth of about one hundred and visity arres, clear, pure, and rich as the richest, it possesses all the requisites for guerating gas, and, in fact, to now being used for that purpose in Déferancity. In addition to the Missouri river for navigation, which is equal to any navigable waters in the world, we have railroads built, being built, and projected in almost every direction from Jefferson city, opening for the distribution of this coal the whole North, West, and northwestern country, where fact, from its searcity, has become unlimited in importance. The following is an estimate of the expense of mining and delivering the coal on the bank of the Missouri river, to the amount of three millions of bushels per year, for the use of steamboats, and to supply orders that will be made from all parts of the western country, together with one millions of bushels for the manufacture of cit; making in all flour millions of bushels.

For mining, one ceut per bushet.

For mining, one ceut per bushel. \$40,000
For delivering to bank and shipping 3,000,000 bushels, five cents per bushel. \$150,000
For manufacturing oil, ten cents per gallon. \$160,000
For incidental expenses. \$10,000

Total expense. 300,000

The yield and profit are as follows: The coal will self readily on the river bank at fifteen costs per bushel, and the off at one dollar and twenty-five cents per gallon:
The yield of 3,000,000 bushels coal at 15 cents \$450,000
The yield of the 1,000,000 bushels of coal in oil, at fifty per cent. less than its capacity, is 1,000,000 gallons, at \$1.25.1,250,000

To which add the amount from coal, making 1,700,000
After deducting former expenses 300,000 The above estimate, it will be seen by those acquainted with the coal business, is based upon what can be and will be done at the bank. The stock is now over half sold, and is feet selling.
